Comment on arising rates: -

Additional information on quantities: Waste stock represents 197 x 200 litre stainless steel high integrity drums with an inner polypropylene lid. The inventory of these drums was generated during the removal of insulation from the upper shaft of Pile 1 chimney down to the 35m level, Pile 1 diffuser and an amount of floor scabblings from Pile 1 "Ballroom". This material is deemed to be ILW.

Uncertainty factors on volumes: Stock (upper): x 1.00 Arisings (upper): x -
